

Communication and Interaction.

Speech and language therapy.

Our TA's are experienced in delivering Speech and language therapy programmes set out by the therapists assigned to specific children.

WELLCOMM

WellComm is a speech and language toolkit that can be used with children from 6 months to 6 years of age. It is a means of tracking progress of all children and will identify areas of concern in language, communication and interaction.

Monster Phonics (Post Y1 check)

During daily 15 minute sessions, children with specific learning difficulties use this structured programme to improve their phonics and reading skills.

Precision teach

These sessions focus on the pupil's individual learning needs in short focused sessions 2 to 3 times per week.

Cognition and Learning

First class @ number

1stClass@Number comes ready-made with detailed session guidance and extensive resources. A specially trained teaching assistant delivers up to 30 half-hour sessions to a group of up to four children, for 10 -15 weeks. The children continue to take part in their normal class mathematics lessons.

Doodle Maths

Using the latest adaptive technology, Doodle Maths creates every child a unique work programme that fills gaps in their knowledge, targets tricky topics and consolidates their learning, helping them to get ahead in maths.

Lego Therapy

Lego Therapy is a powerful intervention designed to support children with ASD and communication challenges in developing skills in language and collaboration.

ELSA

A 6 week emotional literacy programme to support children build resilience and confidence. Children are referred by their class teacher.

Hunloke Park Primary School Provision Map

Mastering Number

Is a daily programme and is aimed at strengthening the understanding of number, and fluency with number facts, among children.

Forest School

In Forest School we offer support to pupils to develop their emotional and social skills. It is a program that supports play, exploration and risk-taking and builds

Catch up Literacy

Catch Up® Literacy is a structured intervention programme for struggling readers who benefit from one-to-one support and a personalised programme of learning grounded in rigorous academic research.

Lexia

Lexia supports pupils of all ages and abilities in literacy skills, development, and has been proven to be effective in over 20 externally reviewed research studies.

Positive Play

One to one sessions are delivered in a sensory environment using the natural medium of play. The structured sessions are tailored to meet individual needs, assisting in developing, listening and communication skills, addressing anger management issues and helping children and young people to deal with the consequences of their actions.

Squiggle /Funky Fingers/ Dough Disco

An early years intervention used in reception to improve fine motor control and dexterity.

Jungle Journey

Physical literacy to develop gross and fine motor skills.

Using balance pads, gym balls and other large equipment, children develop gross motor skills to support writing and fine motor coordination literacy activities.

Social, Emotional and Mental Health Difficulties

Sensory and Physical needs
